Good afternoon

Please see below WA feedback on the Draft IHPA Work Program and Corporate Plan 2022–23:

- WA expects to be able to meet the requirements of AN-SNAP V5.0 and AMHCC, noting that finalisation of changes to WA's required system works for AMHCC may be impacted by priorities around the ongoing COVID-19 response.
- Work is underway to include IHI in the Mental Health and Subacute and Non-acute Data Collections. This work is being done across a range of WA data collections and is not expected to be completed for inclusion from 1 July 2022. WA will be supplying data using the current data set specifications, excluding the IHI data elements until they are available.

Best wishes
